CPWRDSK600

Desktop Power Supply 600W

The Conceptronic desktop power supply will provide you with enough power to browse the web, finish your office work or watch your favorite movies. The power supply is stabile and efficient and shares its output power with all the components in your computer. The silent & temperature controlled fan provides the neccesary airflow in the power supply. With this power supply, you can enjoy using your computer like it should be!

* The maximum output is based on the average peak power of the power supply.

Highlights

> Maximum 600W output power
> Silent 12CM fan with temperature control
> PCI-Express Power for high power demanding graphic cards
